

WHAT IS A COMMUNITY ASSOCIATION?

Your community association is a non-profit, volunteer organization that represents the interests and meets the needs of the residents within the community ... your needs!

I DON'T USE THE PROGRAMS OR THE COMMUNITY CENTRE ... WHY SHOULD I JOIN???

Your community association needs your support even if you don't make use of the programs offered because you benefit directly from the work your community association does:

- Your membership fee supports affordable, local programs that help keep your community healthy and attractive to old and new residents alike.
- Children learn social and leadership skills through community programs, which help them to become responsible, productive adults.
- Special needs groups receive important support through community associations.
- If your neighborhood is faced with a planning issue, from transportation to zoning, your community association can help protect the interests of the community.
- The cost of building and maintaining facilities is considerable. Your membership fees are an important part of your community association's fundraising effort.

At the Silver Springs Community Association we believe membership fees are a small price to pay for the many hours your community association volunteers contribute to make your neighborhood a better place to live.

Yeah, but....WHAT'S IN IT FOR ME?

You'll enjoy a healthier community through the efforts of a well-supported community association. As a member, you'll have a say your community association's priorities as we progress into the future.
